

# MAC Support

---

## **Affordable and Personalized On-site Apple Support Services by Certified MAC Technicians**

We are certified APPLE Consultants who have years of hands-on MAC repair and networking experience. We regularly conduct component level repairs on iBooks and iMacs, as well as setups of cross-platform networks with multiple servers and storage solutions. In other words, we are not former web designers, but a team of trained technicians who you can trust to setup and administer your APPLE network, whether it is one MAC, or an entire production company.

When you work with us, you are guaranteed to receive clear answers, expert work, and professional follow-up support. You can count on us - lifelong MAC gurus - for friendly service seven days a week. We love Macs and you will love working with us.

Call **310-837-2525** for more information or an appointment.

**"Excellent - responsive. Recommended you . . . Better than prior Apple consultants whom I used for years" Don Shaw**

**". . . [he] was prompt, knew exactly what he was doing - fixed the problem fast. He's terrific! Quick, painless, reasonable and polite." Tara Aronson -Pasific Palisades**
